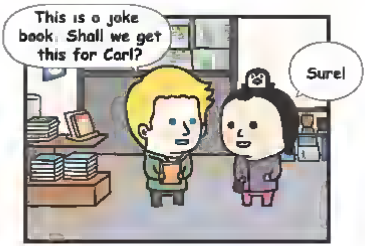
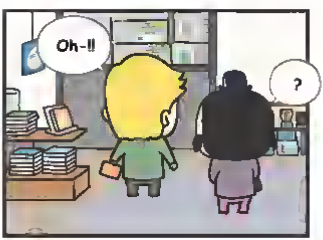
A Massage Machine

We went to a big shopping mall in a town.

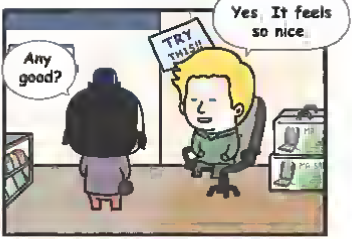
Then we went to inside a shop
that sells many idea products.



There were many things that interested Mev.



One of them was
a back massage machine
that you could use
by putting it on a chair.



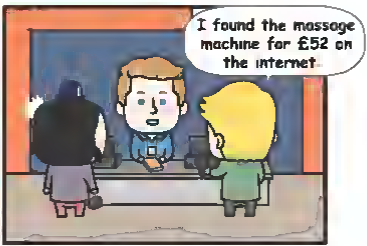
Mev loves massage
so he really wanted to get it.

So we quickly checked the online price.

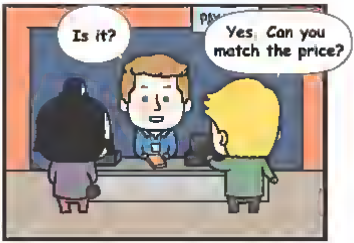
There was almost an £8 gap.

Finally,
we decided not to buy the machine

I knew that Mev didn't do
this kind of things normally.



However, that day, he was brave.



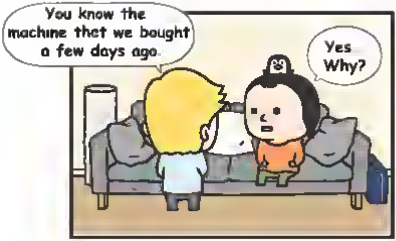
When I wasn't sure
if it would work or not,...

... then the staff offered us
an even better price.

So we could buy the machine
£10 cheaper finally.

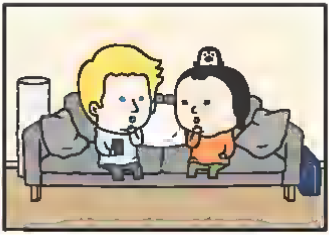
Our feet on the way back home were so light with joy

A few days later.



You know the machine that we bought a few days ago.
Yes. Why?

I checked the website again,
the price's gone up to £62 from £52.



The whole of the UK was filled with our cheers that day.

I say oh,
you say yeah!
Oh-
Yeoh-
